

We're Filled With Hope

Author: Sunshine Lutey, 2015

Insidious, unbelievable, simply incomprehensible

**The havoc this disease can bring! But
We're filled with hope, We're filled with song
Alzheimer's Disease -- Fight to color it gone!
Had a friend, and family, too
Watched them slowly fade from view
Affliction grows, year by year
We fight to make it disappear.**

Insidious, unbelievable, simply incomprehensible

**The havoc this disease can bring!
They lose their keys, they lose their way
They forget your name, don't know the day
So hard for those who provide the care
A heavy load to bear**

**Alz.org teaches compassionate care, has Help lines ready always there
Needs Volunteers everywhere, Supports Research -- with gains to share So**

**We're filled with hope, We're filled with song
Alzheimer's Disease -- Fight to color it gone!
Hand in Hand we work on and on
To Make This Dream Come True
We're filled with hope, We're filled with song
Alzheimer's Disease -- Color it gone
We're filled with hope, we're filled with song
We're filled with hope and song!!!!**
